line 1, delete "to 24";

Add the following new claims:

26. A process according to claim 11 wherein the microspheres contain molecules of a fluorescent dye having a prolonged fluorescent period such that the signal strength is capable of being determined by a time-resolved fluorescence technique.

a 27. A process according to claim 20, wherein the developing binding material is directly or indirectly covalently bonded to the microspheres.

28. A kit according to claim 23 wherein the solid support has the capture binding agent immobilized thereon in the form of one or more microspots of size less than 1mm^2 and surface density of at least $1000\text{ molecules}/\mu\text{m}^2$.
